

IMPROVEMENTS IN BROADWAY—HELMOLD'S NEW DRUG-STORE.—If the lordly Seacoast rebels who were wont to promenade Broadway in the Summer and Autumn, and who so confidently predicted that grass would commence growing in that thoroughfare as soon as they decided to shake the dust off their feet and stop shaking the dust out of their pockets for our benefit, could just take one glance back upon their old promenade, as many of them, I doubt not, would be glad to do, they would discover two things—first, how silly and self-conceited they were, and second, how easily we can do without them. They would find changes in Broadway, to be sure, but instead of grass and weeds, they would find marble taking the place of brick, iron the place of wood, and all the evidence of improvement and prosperity, instead of dilapidation and decay. Not the least among the more recent improvements that would strike their attention would be the magnificent new drug store and chemical ware house lately opened by the renowned Philadelphia pharmacist Mr. H. T. HELMOLD, at No. 594, Broadway, adjoining their old favorite resort the Metropolitan Hotel. This establishment is just now the lion among the attractions of Broadway, and is daily and nightly drawing crowds to witness its novelty and splendor. If any thing can make drugs palatable it is this, and it would almost compensate one for a fit of sickness to know that the healing prescriptions were to be compounded in such a glorious place. Mr. Helmold has leased the entire building, which is 28 feet front, 235 feet deep, and 5 stories high. The front half of the first floor is fitted up for the retail department, and the remainder is used for the wholesale business and as a laboratory for the preparation of the various extracts which the name of Helmold has made so celebrated. The drug-store proper is unlike any other heretofore seen in this City, and is probably unequalled in the world. It would be a work of supererogation to give a detailed description of what every body is flocking to see for himself, but it may not be amiss to mention one novelty connected with the establishment—the reception room. Who ever heard of a reception room in a drug-store? And yet, who has not wished while standing, frequently a long stand, waiting for his prescription to be prepared, that his keeper of the shop had not been considerate enough to furnish more comfortable accommodations? Helmold has supplied this desideratum in his new establishment, and customers detained there have but to step to the rear of the store where they will find luxurious chairs, sofas and lounge on which to recline, while their feet rest upon the softest of velvet carpeting.—This feature is only in keeping with the other novelties, and with the general splendor of the establishment. Mr. Helmold, we understand, still continues his large establishment in Philadelphia, of which the store just opened here is only a branch made necessary by the extensive sale in this market of the popular extracts which bear his name. *N. IMPORTANT TO LADIES.—Dr. HARVEST'S FEMALE PILLS have never failed in removing difficulties arising from debility, or stamping of nature, or in restoring the system to perfect health when suffering from Epileptic Affections, Headaches, Uteri, the Whites, or other weaknesses of the Utterine Organs. The Pills are perfectly formed on the constitution, and may be taken by the most delicate female without causing distress; the same time they act like a charm by strengthening, invigorating and restoring the system to a healthy condition, and by bringing in the monthly period with regularity, no matter from what cause the obstruction may arise. They should however, not be taken during the first three or four months of pregnancy, though with any other time, as abortion would be the result.

Each box contains 60 Pills. Price \$1.

DR. HARVEY'S TREATISE ON Diseases of Females. Pregnancy, Menstruation, Sterility, Reproduction, and Ailments of Nature, and emphatically the Ladies' Private Medical Adviser, a pamphlet of 64 pages, sent free to any address, six cents required for postage.

The Pill and book will be sent to me, when desired, directly sealed, and prepaid.

WHAT HORSEMAN WILL BE WITH-
OUT DEATH? VENETIAN HORSEMAN'S
LITTLE BOOK OF HORSES.

Tellus. Dear Sir—During 21 years I have been in the horse business, I have leased, and sold a great quantity of various horses. Some two years since, because of so many wonderful ones having been made for your Venetian Liniment, I tested its merits, and it has given the best satisfaction of anything I ever used. I never sold anything which gives out universal satisfaction among horsemen. It is destined to supersede all others.

Yours truly, S. W.

Mr. WM. GRACE.—I wish to state to you for the benefit of those similarly afflicted the great relief I have found from the use of Grace's Salve. I have been troubled with one of those old violent ulcers on the leg for three or four years, and tried various remedies without success. I procured from Dr. Wm. H. Grace, of Boston, a few weeks ago, his salve, and it has entirely cured the ulcer, and I know of two other cases that have been cured by the same. I am desirous to add, that in your good work of relieving the afflicted send this for your use.

Respectfully yours,

ANTHONY C. CAMPBELL.

THE MICROSCOPE.

The want of a cheap and a good instrument of this kind has long been felt, but it has, at length, been supplied by Mr. Craig. His Microscope is superior to all others in degree of their extent of magnifying power, simplicity of arrangement, and convenience. Very few people have any idea of the value of a microscope, and we say that no instrument can be had so well adapted to popular use, as we all our friends to avail themselves of the opportunity. The living colors are at hand and nothing can be increased for the same amount of money which will furnish so much amusement and instruction. The price of the Microscope is \$2. Sent by mail for 225, or with six mounted objects \$3. A fine assortment of objects can be had when desired, at \$10 per dozen. C. H. Wheeler & Co., 5 & 7 Beaver St., Boston, are the manufacturers, and will supply the trade.
